<b>Voltage/Power/Current</b>	220 – 240 V   1400 W   6.1 A
<b>No-Load speed</b>	7000 – 10 500 r/min
<b>Blade holder diameter</b>	48 mm
<b>Different bevel angles</b>	30°   37.5°   45°
<b>Speed preselection</b>	

**Professional Pipe Beveller for on-site welding applications**

Continuous good results for on-site pipe beveling applications with Exact's PipeBevel you can easily make fast and accurate welding bevels to pipes in a variety of materials. The user interface of the machine is similar to Exact pipe saws, which makes it easy for the operator to adapt after cutting the pipe with any Exact pipe saw. The cutting head of the beveller has 3 cutting tips, each of them having 4 cutting edges to rotate once becoming blunt, so it is economical to use. The cutting heads are available in most commonly used bevel angles (30°, 37.5° and 45°), and 'tailored' bevel angles can be made if required. A stopper feature also enables the operator to make similar additional bevels to the same pipe O/D.

**PRICE INCLUDES:**

PipeBevel 220E beveller, shoulder bag, pipe support x2, instructions, allen key 5 mm, DVD video. *THE CUTTING HEAD and BEVEL TIPS are separate compulsory accessories.*
